Important Information From The Author

To make sure that this method is working correctly, I checked the authenticity of this method today (i.e. on 19th April 2016), I followed this method in a step by step manner and I found it working perfectly & flawlessly. I applied it on a totally new Facebook account which I made today morning. I added friends by using the strategy mentioned in this PDF and within 6 hours I was making money. I took latest screenshots from my Facebook account, Clickbank account and income proofs today (i.e. on 19th April 2016) and inserted them in this PDF to give you the latest perspective and analysis.

One more thing that I want to add is that Facebook makes only minor changes in the interface of its website after every few months, so you should not worry about the changes that Facebook makes. You should apply this method without any hesitation and if you follow it in step by step manner, then I am sure that you'll start making \$60-\$100 a day in just 3 days and you'll be making \$500 a day within just 4 weeks and it's my personal guarantee!

Ok, Guys! You might have read many e-books on making money, but no e-book gives you any guarantee that you'll make money, right? But, here is the most realistic and practical e-book you have ever read in your life. It's a complete blueprint of making rock solid income consistently! This is the exact method which I use to make **\$500 a day** from my own Facebook account! By following this strategy, like hundreds of other users, you can also reach at **\$500 a day in just 4 weeks, starting from scratch!**

Step 1: Visit www.facebook.com and create a new Facebook account. If you already have a Facebook account, do NOT use it because it has your personal friends and it's not going to make you any money. Your new Facebook account should look like a profile of 18-20 years old girl. Girls get more attention and gain friends quickly. Name should be sweet & common one. It shouldn't look like a fake profile. It should be sober, natural and simple. Go to www.images.google.com and find the pictures that represent girls like flowers, candles, lips, cleavage (*sorry girls*) etc. and upload one of them as your profile picture. Don't place picture of someone other. Enter as much information as you can into your profile because people don't like empty profiles. *Simple eh!*

Step 2: After you've created a new Facebook Account, it's the time to add friends to it. You can add maximum 5000 friends to your Facebook account. Your motive should be to exploit this opportunity as quickly as you can. This is the most important task. How much money you'll make depends upon the number of friends you have. I'll show you how I added **5000 friends in 7 days only** but you can start making money as soon as you've only 1000 friends (Just 2 days task).

Step 3: If you start adding friends manually, you can't add 1000 friends even in a year so we'll use a strategy to add friends really fast! As per this strategy, you need to find a good email list generator. Please note, we're talking about an email list generator and NOT about an email extractor or email scraper or email harvester. NEVER use an email extractor, harvester or scraper because you're going to waste your time because an email extractor will simply harvest email addresses from the internet and give you the list of collected email addresses. There are so many problems in using an email extractor, harvester or scraper. First, an email extractor extracts & collects email addresses from the websites randomly so the number of email addresses is limited upto the email addresses available on the websites i.e just 100, 500 or 1000 email addresses. Second, it will also collect email addresses from the websites of

business firms, companies, lawyers and doctors etc. which are of NO USE to you. Definitely, you won't like to send a friend request to a doctor, lawyer, advocate, carpenter or an accounting firm. It can put you in a serious problem. So, don't even think about collecting email addresses from the internet and using them to send friend requests. Makes sense?

An *email lists generator* is different from an email extractor/harvester/scrapper and is more powerful than that. An *email lists generator* generates lists of supposed email addresses using common names of the people of the countries you want to target. These email addresses belong to the general public and not to the companies, firms or business houses. The best thing is that you can use different combinations of the names, keywords, domain names and random numbers to generate the lists of hundreds of thousands of unique email addresses. Using an *email lists generator* you can target any market in any country you want. For example, you can generate lists of email addresses of those people who're interested in making money, losing weight, poker, credit cards, music, websites, SEO, Twitter or Facebook applications etc. Not only this, you can also target any country you want e.g. USA, UK, Canada, Spain, Nigeria, Australia and any other country. I downloaded and tested different email lists generators, one after another. It took me 2 weeks and I wasted around \$1325 to find the right tool. Yes, after wasting \$1325 and testing different softwares, I found "Acute Email IDs Production Engine". I found this tool very impressive because there are two main reasons behind that. **First**, it's the cheapest one in price amongst all the tools I tested and rejected. **Second**, it's user friendly, easy to use & very effective. The best feature is that it saves email addresses lists in the text file format (.txt) which is a very important requirement for our method. It's really cheap in price and you can easily afford it.

I know I am taking risk by openly recommending a product. You might think that I want to sell you this software, right? **Wrong!** This is not a crappy e-book which contains affiliate links from [Clickbank](#) or [Commission Junction](#) websites to make sales and earn commission. I am already making \$500 a day, so few \$\$ from affiliate commission won't change my life. I am recommending this software because I've already tried many other softwares after wasting a lot of time and money and I don't want you to waste your time and money like I did in searching for the right tool. Although, I've made a recommendation but you're still free to use any tool of your choice but if you're going to buy a software other than Acute Email IDs Production Engine, then please make sure it has following features:

- option to generate unlimited email addresses lists

- target any country you want
- target any niche you want
- add random numbers while generating emails
- save email lists in text file (.txt)
- view and remove email lists
- add names into the database
- add countries into the database.

To give you a clear idea, so that you don't get confused, I've designed a small image just for your understanding.

***You've saved a lot of time and money by just viewing
at this image because I've already done the research for you 😊***

While using email list generator from www.sagawebs.com I found that more than 80% of generated email addresses really existed and that was a very good thing. Means, if you generate a list of 4000 email addresses then 3200 will be real ones and this is a fantastic figure. You don't need to send emails to these people. Facebook has a special feature to invite these people.

Warning!

I have noticed that few websites are cheating the customers by promising that they will give you Acute Email IDs Production Engine at a less price but it is a fraud. Either they will take your money and will not give you anything or they will give you another software which will be of no use to you. Even if they give you Acute Email ID software, they won't be able to give you license key because the activation is online. You will have to buy Acute Email IDs Production Engine thereafter again and it will cost you even more money. So just avoid these websites as there is no need to take risk. I bought my email list generator i.e. Acute Email IDs Production Engine from www.sagawebs.com who is the **genuine** and **original seller** of this software. So, don't give your money to any scammer or any other website, simply visit www.sagawebs.com to get Acute Email IDs Production Engine which is the best email list generator that works perfectly.

Step 4: Using your email lists generator, generate an email addresses list and save it in a text file. It should not take more than 60 seconds. Acute Email IDs Production Engine automatically saves email addresses in the text files (.txt). If you're going to choose a different email lists generator then make sure that it has this feature because it's very important.

Step 5: Now, we need to upload this list to Facebook but Facebook will NOT allow you to directly upload this text file containing email addresses list. You need to put this email addresses list in a special format to upload on Facebook. I have already created a file having the required format. [Click here to download](#) 'contacts.csv' file on your computer which is already in that format which Facebook accepts. After downloading, open this file in MS_Excel. In case you don't have MS_Excel then you can install "OpenOffice" on your computer [by downloading it from here](#), it's free! If you're using "OpenOffice", then right click on 'contacts.csv' file icon and choose **Open With > OpenOffice.org Calc** like shown below:

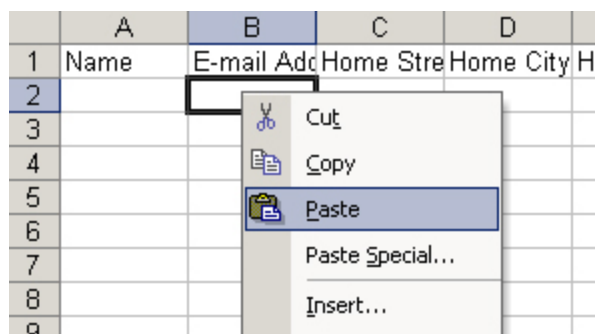

On next window, it will ask how you would like to open this file. Make the following settings. Please note that the option 'Comma' should be checked and the option 'Space' should be unchecked. After doing these settings, click OK and file will open.

After opening, this file will look like as below. This is an empty file, because it's just a format which Facebook accepts.

	A	B	C	D	E	F
1	Name	E-mail Add	Home Stre	Home City	Home Pos	Home Stat
2						
3						
4						
5						

Step 6: Now, open your **Text File** in which email addresses list (you just generated) was saved. Copy all email addresses from it, come back to 'contacts.csv' file, right click and paste all email addresses under the column '**E-mail Addresses**' as shown in the picture below. Leave all other columns blank.

After pasting email addresses, 'contacts.csv' file will look like as below:

	A	B	C	D	E
1	Name	E-mail Address	Home Street	Home City	Home Position
2			ptinternet.com		
3			erizon.net		
4			mail.com		
5			agift.com		
6			oo.com		
7			@gmail.com		
8			@yahoo.com		
9			aol.com		
10			@aol.com		
11			hoo.com		
12			@hotmail.com		
13			feji@gmail.com		
14			uja@gmail.com		

Step 7: When you save this file, MS_Excel (or OpenOffice) will ask you a new file name but you can simply overwrite the file choosing the same name. Choose 'Yes' if you see the following screen:

Trust me, you've done 60% work and are very close to **\$500 a day**. Was it difficult? I don't think so! If you think it was difficult, then simply read it again and apply these steps while you're reading. You may find this process a bit boring, but remember **\$500 a day** is not a small amount.

Here's the recap of what we have done so far:

1. Create a new [Facebook](#) account. Your profile should look like a profile of 18-20 years old girl. It should look simple, sober, natural and real.
2. Generate an email list using an email list generator of your choice. I used [Acute Email IDs Production Engine](#). Do NOT use any email extractor, harvester or a scraper. You can instantly order it on [www.sagawebs.com](#). Always beware from the scammers so go straight to [www.sagawebs.com](#) to buy genuine copy.
3. Download and install "OpenOffice" [from here](#). (No need if you already have MS_Excel).
4. Download 'contacts.csv' file [from here](#). I am offering this precious format, free of cost. Copy email addresses from text file and paste them in 'contacts.csv' file and save it.

Is it clear? Let's go further...

Step 8: Now, we'll upload 'contacts.csv' file on Facebook so that Facebook can send friend requests to these people. If they're on Facebook, then they'll get friend request instantly and as soon as they accept your friend request, they'll become your friends. In case they're not on Facebook, then Facebook will send them invitation to join Facebook to become your friends. In both situations, you win. This step is really simple! Login to your Facebook account, visit this page: <http://www.facebook.com/invite.php> and click 'Import your email addresses' option.

Step 13: After sending invitations, open 'contacts.csv' file again and delete all email addresses from it. To invite more people, simply generate a fresh list of email addresses using 'Acute Email IDs Production Engine' and paste it in 'contacts.csv' file and save the file again. Now, upload this file again on Facebook by repeating the same process to invite more people. You can do it as many times as you want by generating fresh email addresses every time.

On first day, I sent invitations to 800 people and it took just 20 minutes!

Didn't you find it easy?

Yes! It's a very easy process. Apply this process while reading this e-book, it will make things a lot easier. Follow this practice only two times a day. It takes only 2 minutes to generate hundreds of email addresses.

Attention!

Like I said earlier, consider yourself very lucky that you've got your hands on this method while others are still struggling to make money. Not only this, the chances of your success are high enough because most of the people are lazy and they will not act on this report or they think that this method will not work for them. By the way, I can't find any logic behind such thinking. May be they are too pessimistic or so unlucky to be successful. Anyhow, it's good for you because when only few people will act on this report, your chances to WIN will be more because of low competition 😊😊😊

Ok, when I sent invitation to 800 friends on first day, 334 people were already on Facebook and they got friend requests immediately and the remaining 466 people who were not on Facebook got invitation to join Facebook via email.

...Result?

I added 26 friends in 1 hour only.

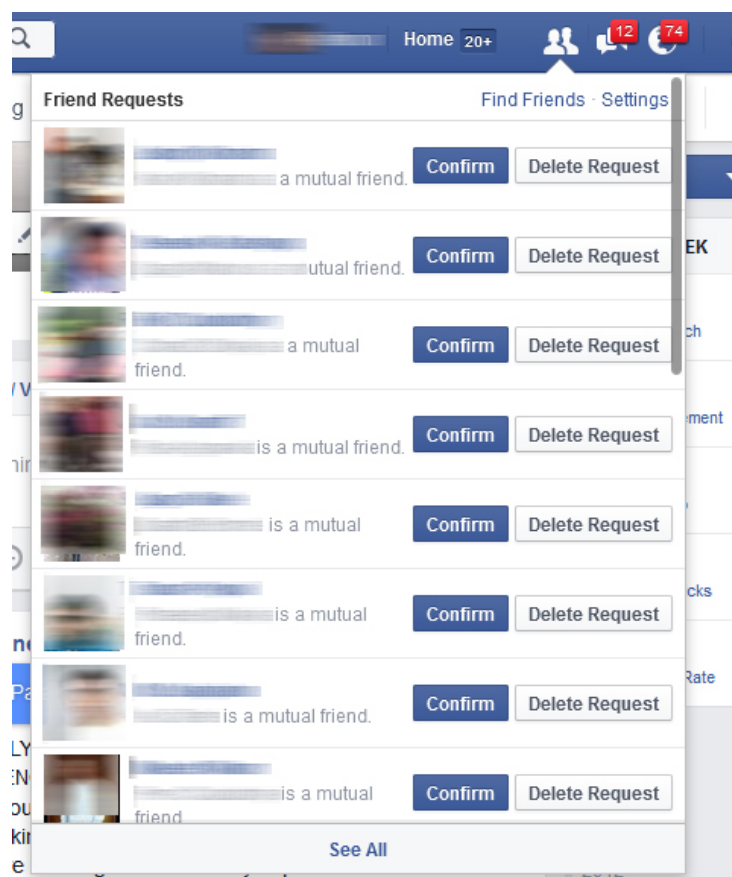

You know, Facebook activities go viral. When you add a friend, it's displayed on walls of both of you and a lot of other people notice your profile and they also like to add you as a friend. Your work is just to accept these invitations.

See, how many friend requests I got within next 2 hours.

Yes, there were **39 friend requests** and my job was just to add them one by one.

Here is the screenshot of huge number of friend requests that I got on the same day I sent the invitations. As soon as you get friend requests, you can add them as your friends by clicking 'Confirm' button. I've blurred the names of Facebook users to protect their privacy, as per Facebook "Terms of use".

I added all of them as friends and now I had **63 friends**. (All in just 3 hours)

After around **8 hours**, I checked again and got amazed that I had **more than 250 friends** in my Facebook account. **That was a fantastic figure!** Most of the people to whom I sent friend requests had added me (just because of 'hot' girl profile.) Means, I got more than **250 Facebook friends in just one day!** That was more than enough for me.

On **2nd Day**, I generated more email addresses using 'Acute Email IDs Production Engine' pasted them in 'contacts.csv' file and uploaded it on Facebook and invited more people. This time I invited around 3000 people. Again, those who were already on Facebook got friend requests on my behalf and those who were not on Facebook got invitations via email. At an average, generating email lists and uploading 'contacts.csv' file was taking only few minutes. I was doing this process just 2 times a day so I was spending only **20-25 minutes** daily for this work.

On late evening of **2nd Day**, I checked my profile and found that I had **more than 600 friends**.

I was taking screenshots every day, because, I was an active member at [Digitalpoint Forum](#) and was sharing my progress in [this thread](#). The forum members were so excited with the results that they started sharing their Facebook accounts urls and their personal email addresses to add even more friends, faster. It was against Facebook as well as Digitalpoint rules so forum moderators had to delete the thread.

Anyhow, now I was getting 70-90 friend requests daily and was adding a lot of friends every day. I was uploading 'contacts.csv' file daily to my Facebook account by generating fresh email addresses lists using my email lists generator.

I took this screenshot on **3rd Day**. Look at the huge jump in the number of friends.

Day – 3

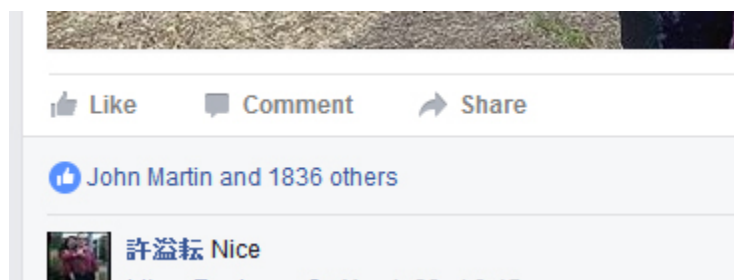

Actually, Facebook doesn't allow you to send 20 or more friend requests manually but, when you invite them with this method, this limit doesn't apply.

On **5th Day**, I had more than **2200 friends**.

Now, I was getting thousands of likes for whatever I shared. Just have a look at this screenshot:

These “Likes” are for some images that I shared on my profile page, I had not created any Facebook page yet. You can share any item in which everyone is interested like images of Apple iPhone, Beautiful Cars, Romantic Quotes etc. etc.

See another picture of immense amount of “Likes”

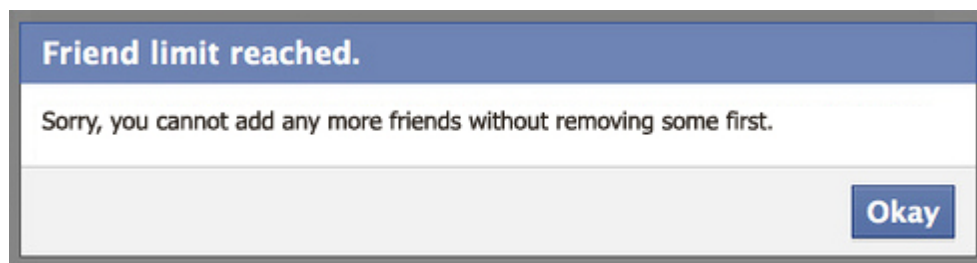

Day-6 - Ultimate Growth Day!

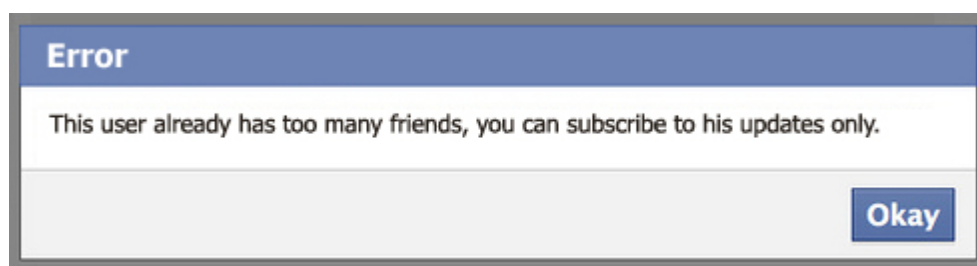

Hurray! This was the 7th Day & I achieved the target of adding 5000 friends.

As you saw on the previous page, that I reached at 5000 friends in just 7 days but still, there were a lot of pending friend requests and when I tried to confirm them I got this message.

Like I already mentioned that maximum number of friends which you can add is 5000 but **you don't need to add 5000 friends and you can start making money as soon as you've 1000 friends**. So after I reached this number of friends, people couldn't send me friend requests anymore. If someone would send me a friend request he'll see the following error message:

When you've 4000-5000 friends, which is a huge number, you get immense exposure to anything you post. Look how I got 695 likes in **just 20 minutes** to a simple message I posted on my FB profile.

See, how many friends in my profile have birthday on same day, because I had a large number of friends, so there were a lot of birthdays on same day.

Once you reach at this level, your **80% work** is complete! I added 5000 friends in just 7 days, but you need only 1000 friends to make money so it can be completed only in 2 days ;)

Here is a **quick** summary of how to add 5000 friends in 7 days only:

1. Visit www.facebook.com and create a new Facebook account.
2. Get a good email lists generator and generate an email list. It should be saved in a text file automatically if you're using [Acute Email IDs Production Engine](http://www.sagawebs.com) from www.sagawebs.com but in case you're using another email lists generator then make sure it has the option to generate unlimited email lists and save them in text file.
3. [Click here to download](#) a readymade file format to upload on Facebook, the name of the file is 'contacts.csv'. Facebook won't accept any format other than this one.
4. Open 'contacts.csv' in MS_Excel. If you don't have MS_Excel then you can [download open office](#) and install it on your computer. Thereafter, right click on 'contacts.csv' file icon and choose open with > *openoffice.org calc*
5. Copy email addresses from text file saved by email list generator and paste them into 'contacts.csv' under the heading 'E-mail Addresses'. Leave other columns blank and save it.
6. Goto <http://www.facebook.com/invite.php> page and click 'Import your email addresses' option and then choose 'Other Tools'.
7. Browse and upload 'contacts.csv' file there. After file is uploaded it will show all the contacts.
8. Click 'Select All' and then 'Add to Invite' button and then click 'Invite your friends'.
9. Do this practice twice a day and you'll get 5000 friends in just 7 days.

Step 16: Creating a Facebook Page

In order to make money from your Facebook account you must have a Facebook page. As soon as you've **just 1000 friends**, you can create a Facebook page and start making money from the same day. That means, if you start today, you can start making money within 4 days. (Adding 1000 friends takes 3 days only and you can create a Facebook page and start making money from 4th day). Although, it will be \$50 - \$70/day in the beginning but within just 4 weeks you'll reach at \$500/day. But even \$50/day in just 4 days is a BIG achievement! ***Isn't it?***

It's all WITHOUT investment!

Let's understand this way

If you start on	You'll have 1000 friends on	You can create your Facebook page and <u>start making at least \$50/day</u> from
Monday	Wednesday	Thursday
Tuesday	Thursday	Friday
Wednesday	Friday	Saturday
Thursday	Saturday	Sunday
Friday	Sunday	Monday
Saturday	Monday	Tuesday
Sunday	Tuesday	Wednesday

You can create a Facebook page for anything you want. It may be about a particular subject you like for example a celebrity, computers, mobiles, laptops, games, dating sites, matrimonial, weight loss, health tips or anything. All you need is a Facebook account and if you've a Facebook account with 1000 friends (which is very easy with email list generator), **then you've gold in your hands!**

After creating a Facebook page, you can start making money from the same day. You'll start selling products and earning commissions from your fan page from **VERY FIRST DAY** and this is my promise. Not only this, as the number of "Likes" for your fan page increases, you'll get even more "Likes" automatically at a rapid speed and you'll make more money every day on complete autopilot!

Most Important Lesson - Remember

Before creating a fan page, you must have at least 1000 friends. That doesn't mean that you can't create a fan page without having 1000 friends but if you create a fan page before having 1000 friends, then your page will not get enough exposure and it will be difficult to earn money from it.

Let's move to the next step...

First of all, visit <http://www.facebook.com/pages/create.php> to start creating a page, choose “Cause or Community” as page type and fill in all the possible details into your fan page.

Facebook Wealth Formula – April, 2016 Edition

How to start making money without having any website or a product?

Because you don't have a website or a product to sell, so we'll take help of Clickbank. Clickbank.com is a digital marketplace where thousands of products are sold every day. It's one of the most popular website amongst those who want to make money online without any website or a product. It's completely free to join. Clickbank is that website where hundreds of informative products like ebooks, softwares and the membership sites are sold every day.

There're 3 types of people who use Clickbank:

1. **Vendors** – Those who create & sell the products like ebooks, softwares, memberships & courses on Clickbank. They're the sellers actually. Generally, the products sold on Clickbank are downloadable.
2. **Customers** - Those who buy the products from Clickbank website.
3. **Affiliates** – Those who spread the links of these Clickbank products on the internet to let people know about these products. When someone clicks on an affiliate link and buy the product, then affiliates earn commissions. Means, an affiliate is a middleman between customer and vendor (seller) and brings the customers to seller's website.

Note: You're going to work as an affiliate in this system.

Your work is just posting affiliate links of Clickbank products on your Facebook page and sending the customers to seller's website. You'll earn commission as soon as someone buys something after clicking on your link.

Now, I'll tell you how to make \$500/day by working as Clickbank "affiliate" and using your Facebook page. You'll get this money transferred to your bank account whenever you want. Your work is just posting the links of Clickbank products on Facebook. When someone clicks on your link and buy any product, you'll earn commission. The commissions on the products are really high and ranges from **50% - 85%** of price of the product. That means, if you post a link to a \$50 product and commission is 60% then **you'll get \$30 for just ONE SALE!**

You won't have to do anything as your work is just bringing the customers to the product website, that's it! As soon as a sale is completed through your link, the commission will be credited to your account and you can withdraw it whenever you want. Clickbank pays commissions via bank cheque or direct bank transfer. You can choose the option in your account. But you can enter your bank account details in your Clickbank account only after you've earned \$100 in commission.

Creating a Clickbank account: So just visit at www.clickbank.com and create a free account. Fill in all the required details in your account to complete it in all respects.

A Secret Tip

In case you don't find your country name in the signup form on Clickbank, then don't worry. For example, if you're from Nigeria then you'll not find "Nigeria" as an option in the list of countries, but still you can create account on Clickbank and earn commissions. While signing up on Clickbank, enter any fake address and choose any country like USA. After you've earned \$100 in your Clickbank account, you can enter your bank account details there and money will be transferred to your bank account and it doesn't matter in which country you're located. They'll ask you just your Bank Name, Bank Account Number and Bank Branch Code (Mentioned on your bank cheque book) and you'll start receiving money in your bank account **even if** you're in that country which is not in Clickbank's list. Now, please don't share this tip with anyone. 😊😊😊

Step 15: Generating your affiliate link:

After logging into your Clickbank account you can start making money instantly. Simply visit this link: <https://accounts.clickbank.com/account/marketplace.htm> This is the marketplace of the Clickbank where you can see all the products being sold on Clickbank. At this page, you'll see an option to find the products:

A yellow search bar with the text "Find Products:" on the left. In the center is a white text input field. To the right of the input field is a magnifying glass icon. Further right, the text "Advanced Search" is written in a smaller, lighter font.

Enter any keyword to find the products according to your taste. For example, if you can sell products related to "Weight Loss" then enter "weight loss" as your keyword and if your interest is in "Forex" then enter "Forex" to find the products. After entering the keyword, you'll get a list of lot of products. There's a button saying "Promote" in front of each of the product like shown below. Click on the "Promote" button in front of that product which you choose to promote. You must [read this article](#) which tells how to choose the best products to promote. But don't make it so hard, just choose any product whose price, commissions and the website appeals you.

When you click "Promote", a popup window will appear. In the popup window, enter your Clickbank Nickname and click "Create" to generate the affiliate link of that product. **Nickname is generally the username of your Clickbank account** and is automatically entered while generating affiliate link.

A form with two input fields. The first field is labeled "Account Nickname:" and contains the text "james980". The second field is labeled "Tracking ID (Optional):" and is empty. Below the second field is a green button labeled "Create".

In the next window the HopLink (affiliate link) will appear in the first field and HTML code in the second field. Copy the HopLink URL from the first field. You do **NOT** need the HTML code. That's it!

“Hoplink” or “affiliate link” is the same thing

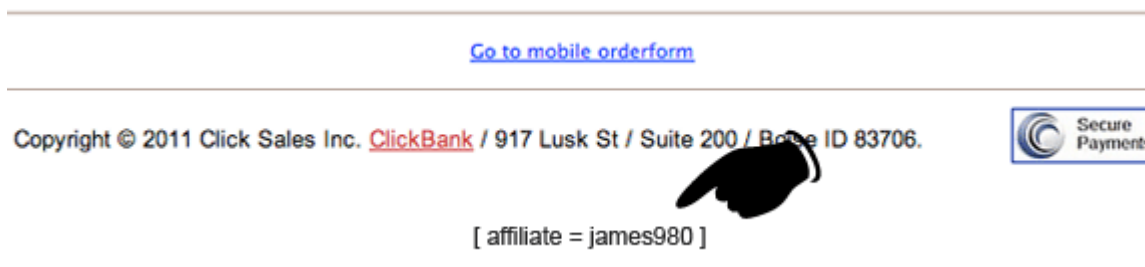

The screenshot shows a red header bar with the text "Affiliate Program: HopLink for 'VENDOR'" and a "Close" button. Below the header, there is a language dropdown menu set to "English". The main text reads: "ClickBank pays you 75.0% when you sell [redacted] 's product. To refer a customer send them to this domain name:". Below this is a text input field containing a long URL starting with "http://xx.hop.clickbank.net/". A red arrow points to this field. Below the input field, it says "Copy the following HopLink HTML code and add it to your web page:". At the bottom, there is a code box containing the HTML code: `Click Here!`.

Congratulations! Now you've your own affiliate link or hoplink. This hoplink has a Tracking ID linked to your Clickbank account. Now when a visitor clicks on your hoplink, he'll be redirected to the website of that product which you selected to promote and if the visitor makes a purchase, you'll earn commission.

Testing your hoplink (affiliate link): It's important to check your hoplink (or affiliate link), before you proceed further. To test, if your Hoplink (or affiliate link) is working accurately or not, paste the HopLink into internet browser (internet explorer, chrome, firefox etc.) address bar and hit Enter. The HopLink will take you to the product website. Read the sales page and, just for testing purpose, click something like "Purchase Now/Buy Now/Download Now" etc. on that page, just like you are a buyer. You'll see the order form page. Scroll down to the bottom of the order page like shown in the image below.

1. If your affiliate link is working properly, you should see: [affiliate = yournickname]
2. If your affiliate link is not working properly, you will see: [affiliate = none]

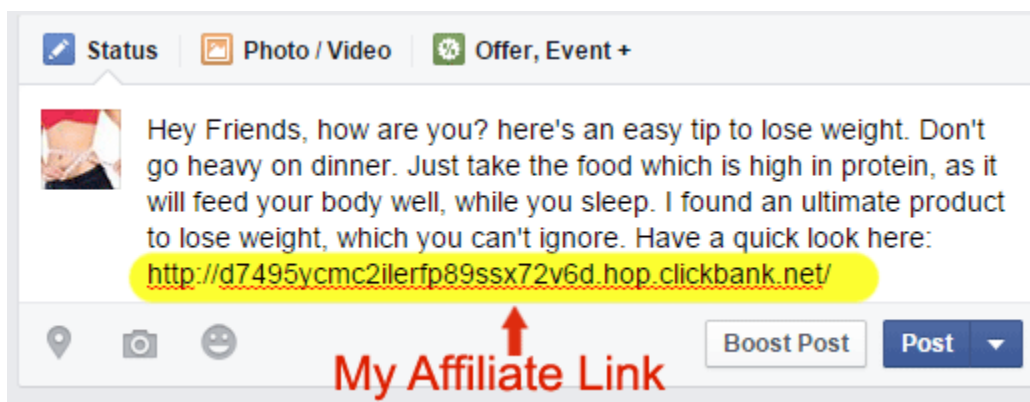

Below shown picture shows a working affiliate link in which username of a Clickbank affiliate is showing up.

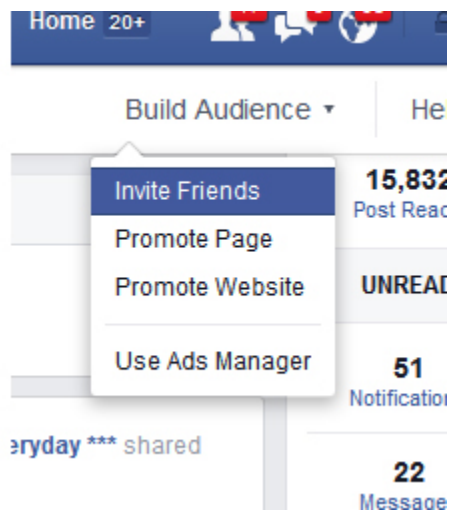

Now, you've your hoplink ready and we need people who click on your link and buy the product. Remember, the more clicks you get, the more sales will be there and more commissions you'll earn. Never post any HopLink on your Facebook wall otherwise you'll be blocked by Facebook and your account will be deleted. You can post Clickbank HopLinks only on a Facebook page created by you.

Now, let's start earning money with your first post

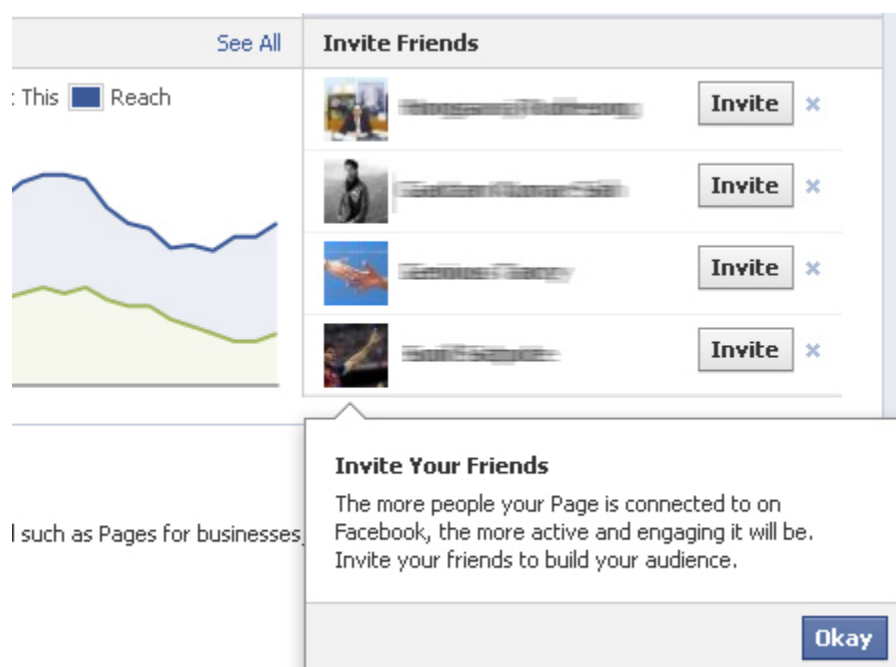

You already have a Facebook page, now it's the time to post "Status" and tell your friends about it. "Status" is a message that you want to share with your fans. I promote "Weight Loss" products. Every day, I post a free tip on losing weight + affiliate link (hoplink) as a "Status". I find new tips every day from the internet and post them on my page with my Clickbank affiliate link. Here's an example of an ideal "Status":

After posting a status update, click “Build Audience” button on your page and then click on “Invite Friends” option.

It will open a widget “Invite Friends” on your fan page. In that widget Facebook shows all of your friends and there’s a button “Invite” in front of the name of every friend.

Once you click “Invite” button in front of your friend name, Facebook will send invitation to your friend to join your fan page. Unfortunately, Facebook doesn’t allow inviting all the friends in one go. So, you can invite them only one by one and it makes it a time consuming task. But remember, once you’ve invited all of your friends, you’re going to see a lot of clicks on your affiliate link and you’ll earn a lot of commissions in a really short period of time. If you can’t finish inviting all the friends in one day or in one sitting then no problem! You can invite the remaining friends on another day and so on. Remember, the more friends you invite the more money you’ll be making so don’t be lazy in inviting the friends. Once someone “Likes” your page, he starts getting updates about your fan page on his wall, automatically. Means, your fans will get notification every time you post something on your page.

How to make your fan page go viral!

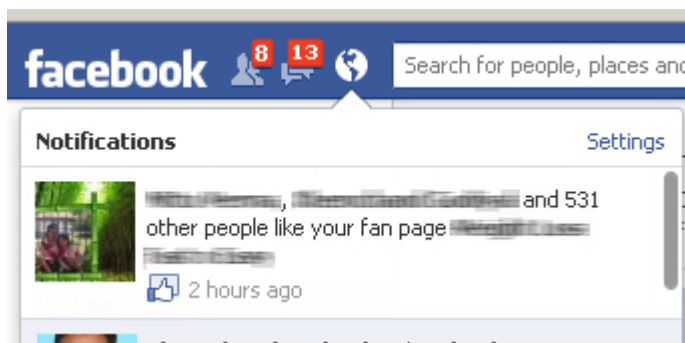

Tip 1: Keep posting newer things on your wall about your fan page. Ask people to join your fan page to get free tips in your niche. Repeat this process few times a day and you will be amazed on seeing the tremendous growth.

Tip 2: Use 'Discussion' tab on your page to start discussions on your topic like 'weight loss' in my case. People like conversations and sharing ideas. Give them some tips and they will share their tips too. This is really simple, just like chatting on your Yahoo messenger or any other discussion forum. You'll also have administrative rights of your fan page, so enjoy it!

May I Tell You Again?

Like I said earlier that you can start making money from 4th Day because in 2 days you can add 1000 friends. On 3rd Day, you can create a fan page and post something with your affiliate link and on 4th Day, you can invite your friends to your fan page. As they'll read your post and like to know more, they'll definitely click on your affiliate link and will buy something from the website you're promoting.

As soon as I had 1000 friends, I started inviting friends to my fan page. It took me 7 days to add 5000 friends but on the other hand, I was also inviting my FB friends to my page. I finished inviting 5000 friends in 10 days, but you can do this task in just 1 day, because you can start inviting them as soon as you've 1000 friends. When I finished inviting all of my 5000 friends on 10th day midnight, I went to the bed feeling tired and sleepy. When I checked my Facebook account on 11th day (next day) noon, I got a big surprise! I saw that **533 users** liked my fan page and it was a huge response.

When one of your friends “Like” your page, it’s posted on his wall. Some of his friends may also like to visit your page and “Like” it and then their friends & so on... Your work is just to wait and watch now! So, when on first day, 533 users liked my fan page, it was posted on their walls and you can imagine how much exposure my fan page got on the same day.

Day - 12 - Next day, when I checked the stats, I almost jumped in the air! See the viral growth! It’s RAPID!

Day-13 – More than 100% increase in “Likes”.

Day-14 (A day of tremendous growth, this is how Facebook works in a viral way)

Day-17

Day-19

Day-22

Day-24

Day-26

Day – 28

On 29th Day, I had more than 50000 Fans – 2nd Target Achieved!!

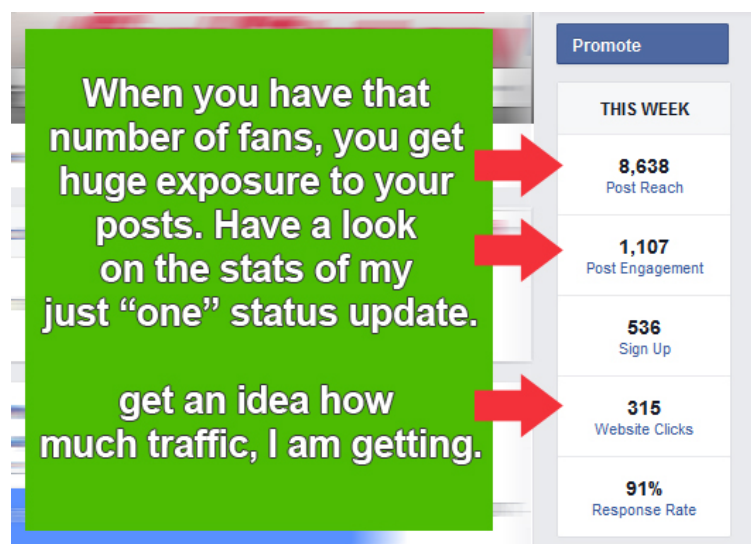

Remember: You must have minimum 1000 friends to share your page otherwise, your page will not be popular. Your first target should be to add atleast 1000 friends to your FB account. This is totally easy and can be achieved in just 48 hours like I showed you. I showed you that 50,000 “Likes” can be gained in just 30 days but you don’t need to get 50,000 “Likes” to make money because you will start making money even when you’ve **just 200 “Likes”**.

Remember: As soon as you’ve 1000 FB friends and 200 “Likes” you’ll start making money.

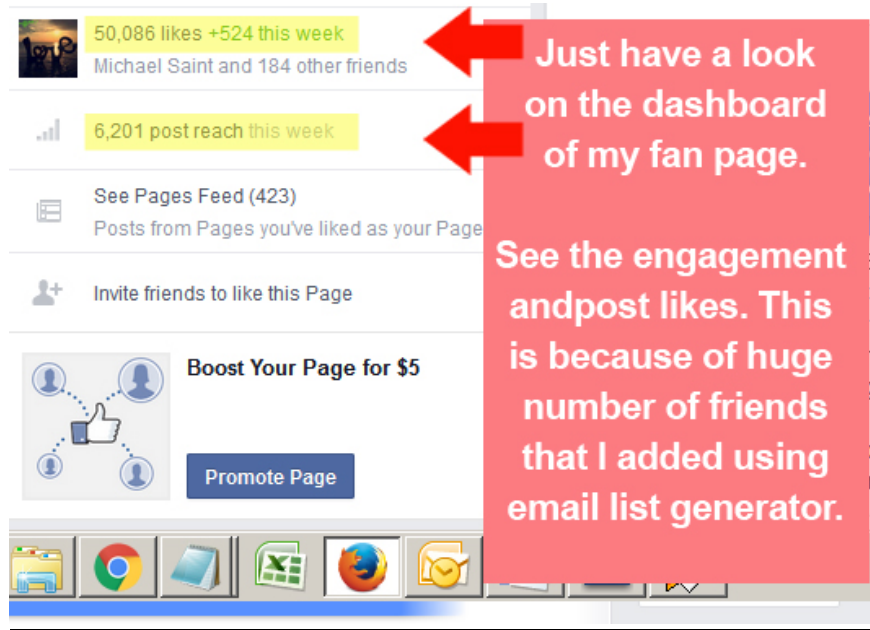

How many posts & how much effective they are?

Just 2-3 posts a day will be enough. It shouldn’t take more than 25-30 minutes a day. I post health tips, weight loss tips, diet information with my Clickbank affiliate links as status updates. You should encourage your fans to click on your affiliate link to get more information about the products.

Let me show you the stats of my fan page that only administrator of the page can view.

Let me show you the screenshot of the dashboard,
only the administrator can view it

By viewing these images, you can get idea about the traffic that I am receiving and the number of clicks which I am getting on my affiliate links. The more “Likes” means more traffic and more traffic means more click and sales.

May I show you another screenshot of ultimate exposure that I am getting from my Facebook page. One day, I made a post about a unique product and you can see how many people viewed and liked my “Status” and how many people shared it with others. That is totally incredible!! On that day **I got 1022 hits** on my affiliate link and made **\$1148 on the same day!**

Let's Calculate Your Earning

Now suppose, you are too bad in writing posts and most of the people ignore your posts. But still if only 1% of your fans click on your affiliate link and make purchases (this is minimum), then you'll get at least 2 sales a day, and this is just the beginning. With the passage of time, you'll get more friends, more likes and more sales.

200 fans X 1% = 2 sales a day - This is just the beginning

What if you've 50,000 "Likes" like I have?

The figures I showed you are really easy to achieve and we've taken everything at its minimum. For example, getting 1000 FB friends is really easy with the help of a good email list generator like Acute Email IDs Production Engine. Once you've 1000 friends then having 200 "Likes" is too easy and just a childish game. Having 200 Likes means you can start making money because if only 1% people read and purchase the items from your affiliate links then you'll start getting 2 sales a day.

Let me show you my Clickbank earnings!

Best Thing About Clickbank!

The best thing about Clickbank is that it pays you through online bank transfer. If you don't have a bank account, then you can get a bank account by going to a nearby bank where you live. As soon as you earn \$100 in your Clickbank account, you can enter your bank details and Clickbank will send your earnings to your bank account and thereafter whenever your earnings level reaches at \$100 it will be transferred to your bank account, automatically!

I remain too busy in my other online businesses and the internet marketing campaigns, so I don't get time to post 2-3 updates daily. I usually post only 3-4 posts in a week and I manage to get around 20 sales a day because I keep getting traffic from previous posts too. I usually promote products which give commission of \$20-\$30 per sale, so I make \$500/day really easy. You'll not believe, but trust me, that to make \$500/day I don't have to do anything except posting some updates on my fan page. **This is 100% autopilot!** I feel so safe about my family, life and the future because this is 100% secure and surefire way of making money from your Facebook account without any investment, website or a product. In the beginning, you will have easy 2-3 sales a day which will make you around \$50-\$60 a day but soon you'll have more friends, more fans and more clicks on your affiliate links. You can reach \$500/day in just 4 weeks, like I showed you. *Just imagine, how your life will change if you start making \$500/day with just 30 minutes a day.*

Here're some of the other products which will sell easily on Facebook. Because majority of the Facebook users are 20-40 years old, so you can sell anything amongst the following:

- Weight Loss (Hot niche)
- Games, Music and MP3 (Hot niche)
- Acne Treatment (Hot niche)
- Dating offers (Hot niche)
- Pregnancy control
- Teen parenting
- Facebook applications
- Surveys etc.
- Mobile ringtones etc. (Hot niche)

A true short story: Few weeks back, my sister in law asked me to recommend her a good method to make money online and I gave her a copy of Facebook Wealth Formula. She applied it and added **1200** FB fans in just **4 days** and now she is simply offering Clickbank products to her Facebook friends & fans and guess what? She's making more than **\$150 a day** in commissions and it's without any website and own product.

There are a lot of opportunities to make money with Facebook. Once you've got around 1000 friends, you can offer them surveys to complete, sell your own product, direct Facebook traffic to your website or blog, you can offer them "Email Submit" offers and much more and you can make a lot of cash with your FB friends. The main thing is adding friends to your account which can be easily done with email list generator. There are a lot of websites who pay you for just bringing visitors and having them fill a simple online form or just submitting their email addresses on the website. **Always remember**, once you've added 1000 friends then there's GOLD in your hands and you just need to monetize that traffic. Your top most task should be to add 1000 friends in your FB account and that can be done in just 2 days. Thereafter you can start making money really simple by just monetizing Facebook traffic.

As soon as you've completed these simple two tasks, send me an email **within next 30 minutes** at admin@highspeedbusiness.net with subject

"I am ready to implement FWF"
